COMPTROLLER-GENERAL'S CERTIFICATE

The above statement of assets and liabilities as at March 31, 1973, is in agreement with the books of the Province of British Columbia.

In my opinion this statement is properly drawn up so as to exhibit a correct view of the financial position of the Province as at March 31, 1973.

J. W. MINTY, C.A.
Comptroller-General

NOTES TO FINANCIAL STATEMENTS

1. Accounting

The accounts of the Province are maintained on a cash basis whereby revenues are taken into the accounts in the fiscal period in which they are received and expenditures are charged when the actual payments are made. The financial statements reflect this cash-basis accounting but with two major modifications:

- (1) Moneys received in April of the next following year pertaining to cost-sharing programmes with other governments (principally the Government of Canada) and for which the relative programme expenditures have been charged to the current year, are included in revenues and shown as accounts receivable in the statement of assets and liabilities.
- (2) Accounts payable at March 31 for which cheques are issued during April of the next following year are included in current-year expenditures and are shown as accounts payable in the statement of assets and liabilities.

Taxes and other accounts receivable are shown as assets for record purposes only through credits to Capital Surplus Account. These accounts are not included in revenue until received in cash.

The interest of the Province in its Crown corporations is shown in the financial statements only to the extent of the amounts actually invested in or advanced to them; thus accumulated earnings (or deficits) of these organizations are not reflected therein. Financial statements of Crown corporations and other Government agencies are presented in Section F of this report.

2. Loans and advances

These are carried as assets at book value (net of reserves in certain cases), as the amount of their ultimate realization cannot be determined at this date.

3. Unmatured debt

In addition to providing for the redemption of all unmatured debt as it falls due (as indicated on the statement of assets and liabilities), sinking funds provide for the payment of all interest thereon.

4. Revenue Surplus Account

(a) Pursuant to the following legislation the Province has undertaken to advance funds to the indicated enterprises. These advances will be charged to Revenue Surplus or to Current Account (nonbudgetary expenditure):

- (1) *British Columbia Cellulose Company Act* (1973, chap. 4)
- (2) *Insurance Corporation of British Columbia Act* (1973, chap. 44)
- (3) *Ocean Falls Corporation Act* (1973, chap. 64)

(b) Pursuant to the *Development Corporation of British Columbia Act* (1973, chap 27)—not yet proclaimed as of June 29, 1973—the sum of \$25,000,000 shall be set aside from Revenue Surplus or Current Account for the purchase of the capital shares of the Corporation (section 3).

In addition, the Act provides that the Province may purchase debentures, bills, or notes of the Corporation and make temporary or long-term advances to it (sections 10 and 11).

5. Contingent liabilities

On June 29, 1973, the Province, through its wholly owned Crown corporation, British Columbia Cellulose Company, acquired the controlling interest in Canadian Cellulose Company Limited. As a condition of the purchase, the Province has guaranteed the payment of the principal and interest of the First Mortgage Bonds of Canadian Cellulose Company Limited. At June 29, 1973, the bonds outstanding amounted to \$68,000,000 (U.S.).

6. Commitments

No provision is made in the accounts for commitments under construction or other contracts in force at the year-end. Such future expenditures are charged to appropriations in the years in which the work or service is performed.

JAMES LORIMER
Chairman

AUDITOR'S REPORT

I have examined the statement of financial position of the British Columbia Harbours Board as at March 31, 1973, and the statement of operations and development reserve for the year then ended. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion these financial statements present fairly the financial position of the Board as at March 31, 1973, and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

J. W. MINTY, C.A.
Comptroller-General, Province of British Columbia

June 29, 1973, Victoria, British Columbia.

Note 1. Commitments in respect of capital expenditure as at March 31, 1973 amounted to \$976,000.

Note 2. No provision for depreciation on the cost of improvements on land held for development has been made in the accounts since such costs are deemed to be incidental to the acquisition of land. With respect to the cost of depreciable railway facilities, by agreement users are responsible for renewing and replacing trackage as required.

REPORT OF THE AUDITORS

The Lieutenant-Governor in Council,
Province of British Columbia:

We have examined the balance sheet of British Columbia Hydro and Power Authority as at 31 March 1973 and the statements of income and earnings employed in the business and source and application of funds for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of British Columbia Hydro and Power Authority as at 31 March 1973 and the results of its operations and the source and application of its funds for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY

NOTES TO FINANCIAL STATEMENTS AS AT 31 MARCH 1973

Note 1 — Columbia River Treaty Storage Projects:

Under the terms of the Columbia River Treaty between Canada and the United States, B.C. Hydro, as the Canadian Entity under the Treaty, has constructed three storage projects in British Columbia on the Columbia River — Duncan, Arrow and Mica.

B.C. Hydro received Canada's entitlement to half the increased generation of power in the United States, resulting from the construction of the three storage projects, which was sold to Columbia Storage Power Exchange for periods of 30 years from the scheduled dates of completion of the respective projects. B.C. Hydro also received payments for providing flood control as each of the storage dams became operational. These various payments and benefits, with interest, aggregated \$479,107,523 as at 31 March 1973.

On 29 March 1973, Mica Dam, the third and final storage project built under the terms of the Treaty, was declared operational. At 31 March 1973, construction costs of the three storage projects aggregated \$547,951,179, and the difference between these construction costs and the contributions arising from the Columbia River Treaty was \$68,843,656. This sum, considered to relate to the future generation of power on the Columbia River in British Columbia, has been classified as deferred costs under property account and will continue to attract interest until the Mica generating plant becomes operational.

Note 2 — Deferred costs, Peace River Project:

Consistent with the accounting practice adopted in 1968, the construction costs of the dam, powerhouse and other common property are being transferred to plant in service by instalments proportionate to the number of completed and operational generating units in relation to the ten units presently contemplated. The transfers are to be completed not later than 31 March 1976. By 31 March 1973, eight generating units were in service and consequently 80% of the costs of the dam, powerhouse and other common property had been transferred to plant in service.

The costs of the dam, powerhouse and other common property of the Peace River Project, not yet transferred to plant in service and included in deferred costs under property account, amounted to \$88,426,112 at 31 March 1973. These costs continue to attract interest charged to construction.

Note 3 — Temporary investments:

Short-term deposits and investment receipts—	
Banks	\$ 61,497,000
Other financial institutions	46,290,000
British Columbia Hydro and Power Authority parity development bonds	89,700
Bonds and debentures held for sinking fund requirements	2,353,326
	<u>\$110,230,026</u>

The above investments are carried at cost, which is not in excess of market value.

Note 5 — Guarantee by Province of British Columbia:

The Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the long-term debt and parity development bonds.

Note 6 — Reserve for insurance:

In 1969, B.C. Hydro adopted a policy of self-insurance on plant and equipment and for general liability. An insurance reserve is being accumulated by annual charges to operations commensurate with the current cost of insurance.

Fire insurance coverage has been retained with insurance companies on certain plant and equipment to comply with trust deed requirements. Insurance coverage is also maintained on major projects under construction.

Note 7 — Depreciation:

The depreciation policy of B.C. Hydro is to allocate the original cost of plant to operations at uniform rates over the estimated service lives of the assets. Depreciation is provided during the year on all depreciable assets in service at the beginning of each year and is computed on the straight-line method.

Note 8 — Contributions in aid of construction:

Contributions in aid of construction include grants for rural electrification from the Government of the Province of British Columbia and amounts paid by customers towards construction of plant. The cost of such plant is included in property account, and the contributions in aid of construction are amortized over the estimated service lives of the related assets.

Note 9 — Reserve for stabilization of rates:

In the year ended 31 March 1973, \$10,000,000 has been appropriated to establish a reserve for stabilization of rates. This reserve will be used to delay or minimize upward adjustments in electric and gas rates that might otherwise be necessary to cover short-term losses in operations.

Note 10 — Interest on debt:

Gross interest	\$129,339,907
Amortization of discount and expense	<u>1,765,957</u>
	131,105,864

	<u>\$123,706,008</u>

The interest rate on Series AN, AT and AZ Parity Development Bonds was increased from 6½% to 7% effective September 1970.

B.C. Hydro charges interest to plant under construction, at rates equivalent to the cost of borrowing funds.

Note 11 — Pension plans:

Employees of B.C. Hydro are covered under contributory pension plans, and provisions are being made for current services according to the requirements of the various plans. Provision has been made for all past service costs under these plans with the exception of those relating to a contributory plan introduced effective 1 January 1965. B.C. Hydro is funding the estimated past service costs of this plan by annual payments of \$393,800 over a fifteen-year period which commenced 1 April 1967.

Note 12 — Commitments:

Purchase commitments and contracts of B.C. Hydro for capital projects aggregated approximately \$205,000,000 as at 31 March 1973.

AUDITOR'S REPORT

REPORT by Buttar and Chiene, Chartered Accountants, Vancouver, B.C. upon the accounts of the BRITISH COLUMBIA RAILWAY COMPANY. As at 31st December, 1972.

We have examined the Balance Sheet of the British Columbia Railway Company as at 31st December 1972 and the Statement of Consolidated Income for the year ended on that date, and have received all the information and explanations required by us.

The statements are prepared in conformity with the Uniform Classification of Accounts prescribed by the Board of Transport Commissioners for Canada.

Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, and according to the best of our information, the explanations given to us and as shown by the books of the Company, the accompanying Balance Sheet and Statement of Consolidated Income present fairly the financial position of the Company as at 31st December 1972, and the results of its operations for the year ended on that date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Vancouver, B.C.

AUDITOR'S REPORT

I have examined the statement of assets and liabilities (fund balances) of the Workmen's Compensation Board of British Columbia as at December 31, 1972 and the condensed statement of fund transactions for the year then ended. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion these financial statements present fairly the financial position of the Board as at December 31, 1972 and the results of its operations for the year ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

WORKMEN'S COMPENSATION BOARD—Continued**ACTUARY'S CERTIFICATE**

We certify that as at December 31, 1972, the following amounts, under A and B, which were examined by us, make safe and reasonable provision for the applicable liabilities and were calculated upon accepted actuarial principles and factors including statistical ratios developed from past experience and the actuarial assumptions recommended or confirmed by us and adopted by the Board:

A. Accident Fund:	\$
(1) Present value of future payments on life or term pensions awarded to date	188,167,327
(2) Present value of future benefits not yet awarded in respect of accidents incurred to date	74,923,707
B. Silicosis Fund:	
(1) Present value of future payments on life or term pensions awarded to date	7,121,985
(2) Present value of future benefits not yet awarded in respect of silicosis pensions awarded to date	1,453,140

We further certify that the statistical estimate of the 1972 assessable payroll, made early in 1973, by the Actuarial and Research Department of the Board, was reviewed and confirmed by us and that the application of assessment rates adopted by the Board to such payroll allocated by class and subclass provides a reasonable estimate of total assessments for 1972 amounting to \$52,067,866.

WORKMEN'S COMPENSATION BOARD—Continued**NOTES TO FINANCIAL STATEMENTS FOR THE YEAR
ENDED DECEMBER 31, 1972****Note 1—Assessments and prior years adjustments**

Since 1970, the method of assessing requires quarterly remittances by employers having annual assessments of \$100 or more and annual remittances from employers having annual assessments of less than \$100. As the fourth quarter remittances and the annual remittances are receivable early in the next year, assessment income for the year is calculated by reference to an actuarial estimate of assessable payrolls. Assessments for each year include this estimate plus or minus adjustments of previous years estimates.

Note 2—Expenditures to be recovered from future assessments

Consistent with the accounting practice adopted in 1970, major expenditures are being amortized over a period of years, commencing in each case with the year in which the facility was first put into operation. The summary of the transactions for 1972 is as follows:

	\$
Unamortized balance—January 1, 1972	3,338,174
Expenditures in 1972	2,844,229
	<hr/>
	6,182,403
Amortized in 1972	444,581
	<hr/>
Unamortized balance—December 31, 1972	5,737,822
	<hr/> <hr/>

In addition, outstanding commitments under building contracts at December 31, 1972, amounted to \$1,187,200.

Note 3—Silicosis Reserve

The actuary's certificate for 1972 (item B (2)) contains an evaluation of the present value of future benefits not yet awarded in respect of silicosis pensions awarded to date. This actuarial liability has not been set up in the books of account, section 38 (2) of the *Workmen's Compensation Act* providing only for cost of claims allowed.
